

Build and Regroup to 1,000

Grade 3 • Mathematics
NC.3.NBT.2

Explain addition and subtraction with place value.

What will a strong explanation show?

1. A model or equation that fits the quantities.
2. Accurate calculation with appropriate units.
3. A check that makes the answer reasonable.

Watch the reasoning

Find $393 + 208$. Show a place-value method and a different check.

Combine equal place values and regroup: $393 + 208 = 601$. Check by subtracting 393.

Build a second model together

Find $763 - 443$. Show a place-value method and a different check.

Discuss: What should the first step find?

Your turn • 1

Find $250 + 153$. Show a place-value method and a different check.

Represent → solve → explain → check

Your turn • 2

Find $401 - 247$. Show a place-value method and a different check.

Represent → solve → explain → check

Your turn • 3

Find $389 + 280$. Show a place-value method and a different check.

Represent → solve → explain → check

Your turn • 4

Find $578 - 352$. Show a place-value method and a different check.

Represent → solve → explain → check

Exit question • Explain independently

Find $428 + 337$. Show a place-value method and a different check.

Include a check. What would you teach someone else?

Teacher review and next steps

1. 403

Exit: 765

2. 154

Use the worked PDF key and slide notes to discuss methods. Revisit the earliest unclear step before adding more practice.

3. 669

4. 226
